

TECNOCRIMP

Vision

To be a benchmark company, recognised as the best solution for its partners due to the quality of its technological solutions in the field of cable production and equipment assembly.

Mission

To manufacture *turnkey* products with high technological value, guaranteeing competitiveness and customer satisfaction, commitment to the fulfilment of people, value creation and business sustainability.

Values

To assert itself as a dynamic company, with great technical capacity and a concern to add value to the Portuguese business space.

We see compliance as a central pillar of effective and sustainable corporate governance. For us, compliance is a question of attitude and loyalty to our fundamental endeavours.

We prioritise our inventive and technological spirit, supported by our professional competence and our goal of continuing to grow sustainably, through respectful and lasting relationships with our business partners and employees.

Values such as reliability, sincerity, credibility and integrity are fundamental to TECNOCRIMP's conduct and actions, based on:

- Partnership
- Quality
- Professionalism
- Organizational Culture
- Social Responsibility

Quality Policy

In order to better fulfil its Mission and achieve its inherent objectives, the Management considers it essential to maintain the Quality Management System in accordance with the NP EN ISO 9001 standard, complying with applicable customer, statutory and regulatory requirements and providing the necessary resources to ensure the effectiveness of processes and promote continuous improvement.

Management undertakes to publicise and ensure that the Quality Policy is understood by all Employees and other Stakeholders.

It is everyone's responsibility to pursue the objectives outlined by Management, which undertakes to ensure that they are permanently appropriate to the present life of the organisation.

João Pedro Santos
General Manager
